AVA Publishing. Paperback. Book Condition: New. Paperback. 484 pages. Dimensions: 9.7in. x 7.0in. x 1.1in. By the early 90s, a raging bull market was delivering spectacular returns, causing some to believe that a market collapse and subsequent depression would soon appear. As a result of these fears, some exited the capital markets altogether. Thereafter, the Internet took off causing the market bubble to swell, many high-tech stocks with seemingly limitless valuations. Over the course of its 13-year stretch, the market appreciated by over 600 percent, with average annual returns in excess of 18 percent. And we all remember what happened at the start of the new millennium. Even after the deflation of the Internet bubble, cautious investors who pulled out of the market a decade earlier missed out on spectacular returns since then. Many investors who entered the market near its peak suffered devastating losses. But most who remained invested since the early 90s are still much better off today. While this correction revealed the most recent illusions embedded within the economy, it's only a small part of what will be a larger correction in the coming years. Despite the scandals in corporate America and Wall Street, many investors fail to recognize that the post-bubble period is quite different from the Bull Run in the 90s. But today, the capital markets have been realigned with authenticity, and economics now control the investment cycle rather than hype generated by Wall Street. Accordingly, Wall Street and the U. S. Government can only hide the realities of America's decline for so long. Unfortunately, America entered the free trade paradigm as a losing participant from the start. While America remains as the centerpiece for the global economy, it relies on record debt to maintain its status as the world's strongest consumer marketplace....
