Linear Algebra and Differential Equations (Paperback)

By Gary L. Peterson, James S. Sochacki

Pearson Education Limited, United Kingdom, 2013. Paperback. Book Condition: New. 235 x 190 mm. Language: N/A. Brand New Book. Linear Algebra and Differential Equations has been written for a one-semester combined linear algebra and differential equations course, yet it contains enough material for a two-term sequence in linear algebra and differential equations. By introducing matrices, determinants, and vector spaces early in the course, the authors are able to fully develop the connections between linear algebra and differential equations. The book is flexible enough to be easily adapted to fit most syllabi, including separate courses that cover linear algebra in the first followed by differential equations in the second. Technology is fully integrated where appropriate, and the text offers fresh and relevant applications to motivate student interest.
