

CRS Report for Congress: Nuclear Energy Policy: January 30, 2003 - Ib88090

By Carl E. Behrens

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Nuclear energy policy issues facing Congress include questions about radioactive waste management, research and development priorities, power plant safety and regulation, terrorism, and the Price-Anderson Act nuclear liability system. The Bush Administration has stressed the importance of nuclear power in the nations energy policy, although it has requested relatively little additional R and D funding. The Administrations FY2003 budget request included 38.5 million for a Department of Energy (DOE) effort to encourage deployment of new commercial nuclear power plants by 2010. Because final action on those funding proposals was not taken in the 107th Congress, DOE nuclear programs are now operating under a short-term continuing resolution. Several bills were introduced, but not passed, in the 107th Congress to encourage the growth of nuclear power. A number of nuclear provisions were included in comprehensive energy legislation (H. R. 4) passed by the House August 2, 2001, and by the Senate April 25, 2002. Conferees were unable to reach agreement on the measure. The September 11, 2001, terrorist attacks on the United States raised questions about nuclear power plant security. Reactor security...
