It has been shown that the earlier drug use is initiated, the more likely a person is to develop drug problems later in life. Youth substance abuse may lead to many other problems that affect not only the child, but also the child's family and community. This booklet, written in both English and Spanish, provides tips for parents to help their children learn by example and remain drug free. Included are topics such as: how to help preschool children make good decision as they form attitudes about drug use; what children should know about drugs by the time they reach the third grade; ways to help your child stay drug free in the middle and junior high school years; and how to ensure that schools are keeping students drug free.
