BiblioLife. Paperback. Book Condition: New. This item is printed on demand. Paperback. 252 pages. Dimensions: 7.9in. x 5.0in. x 0.7in. Since this book was first published, some considerable additions have been made to it, besides further modifications, with a view to correcting any defects which experience has from time to time detected, and bringing it up to the requirements of the present day. These have been carried out under my sanction and superintendence, and to my entire satisfaction, by the Rev. J. Hunter, formerly of the National Society Training College, Battersea, and chiefly at his suggestion; and I consider that the book has been much improved by them. I have taken the opportunity, however, of my being in England for a few weeks, to insert some additional pages on the Metric System of Weights and Measures, the principles of which, by a rule of the Council of Education in force in 1872, were required to be taught to all children of Standards V. and VI. in schools under the control of the Government. The rule in question has, however, been since rescinded, as requiring too much from elementary schools, while the use of the Metric System has not yet been rendered compulsory by Act of Parliament. But the general adoption of that System in England is only, it seems plain, a question of time. J. W. NATAL. London: December 2i, 1874. (Typographical errors above are due to OCR software and don't occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.
