## GENDER AND ECONOMIC GROWTH IN UGANDA: UNLEASHING THE POWER OF WOMEN (PAPERBACK)

World Bank Publications, United States, 2005. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book. Men and women both play significant, though different, economic roles in Uganda (both contribute around 50 of GDP and women are 39 of business owners). Gender inequality in access to and control of productive assets and resources acts as a brake to women s economic participation and limits economic growth. Labor and time constraints differentially affect women s and men s capacity to engage in business activity, with significant consequences for agricultural productivity in the context of strategic exports. It is therefore important for Uganda to unleash the full productive potential of female as well as male economic actors, if it is to achieve high and sustained rates of pro-poor growth. This book considers the relationship between gender and economic growth in Uganda in the specific context of promoting women s business and entrepreneurship. Building on the findings of the FIAS Uganda Administrative Barriers to Investment Report, 2003, Gender and Economic Growth in Uganda identifies specific legal and administrative barriers to investment that have a gender dimension.
