When you are depressed, nothing seems to help. I know, I've been there. The day will come when you've finally had enough, when you are sick and tired of laying in your bed waiting for yet another day to pass. What will you do? Most self-help books are so filled with fancy theories and trite advice that they forget the biggest problem that you are facing: You need something that works right now, something that will jump start your life. Be Happy Now Be Happy Now is the one book designed to help with immediate results. There is no fluff, no expert opinions and no Bullshit involved - just the exact methods I have used personally to overcome depression in my own life. Inside you will find: That the only one responsible for your happiness is you. How to create your personal Happiness Snowball and start it rolling downhill. How to exercise your atrophied Happiness muscle. Visualization techniques designed to allow you to mentally take control of your problems and vanquish them. How to keep those happy feelings you have gained. Why Can I Trust You Just like you, I've battled depression. I've lain in bed while my kids tiptoed through the house whispering Mommy is sick. My brain was so mushed that I couldn't focus on traditional methods to battle depression....
