Reviews

This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

If you do not wish to have your beliefs challenged, then this book is not for you! Over the last few years, my belief in the existence of God has gone from 0.000000001 to 51 making God s existence now more likely than not. You will have heard all the tired old arguments in favour of God, the blind watchmaker etc. You will have heard all the arguments against God s existence, as laid out in books such as Richard Dawkins God Delusion, but here are some very different arguments, in favour of a very different God. This book sets out to prove the existence of a God, but looking for evidence of God in the religious texts is like looking for evidence of evolution in the Just So Stories! We will only ever make sense of our world though science. The various versions of God all seem highly improbable to me, but there are also many inconsistencies in the Darwin alternative. My version of God is sentient, monitoring and influencing many aspects of our lives. If this is so, this would answer many questions. Why the stop-start evolution we see in living things and the fossil records? Why are we pre-programmed to die? Why do all animals have a set life expectancy? Why has natural selection predominantly selected 1 male: 1 female instead of a far more productive 1: 10? Why were more boys born after so many men died in the 1st and 2nd world wars? When some insects have a 1 year life cycle and bacteria have a 20 minute life cycle why don t the bacteria evolve resistance 26,280...
